

**GlobalPlatform  
Supported Configuration Options  
(SCO)  
for Secure Element Products  
Version 3.8**

**SCO Reference Number and Validity Period  
(for GP administrative use only)**

<b>SCO Reference Number:</b>	
<b>Valid from:</b>	
<b>Valid to:</b>	

**Notice:** *This SCO form shall be completed for Card Products submitted for GlobalPlatform Qualification Functional evaluations. The form shall be completed in its entirety. All Yes and No questions shall be answered. If a feature/option is NOT supported, i.e. a question is answered "No," the sub-questions for that feature/question shall be left blank.*

**A - Administrative**

**Product Provider Identification**

A.1.1 – Company Legal Name	
----------------------------	--

**GlobalPlatform submitted Configuration Description**

A.2. 1 – UICC Configuration	
A.2.1.1 – The GP product submitted follows UICC Configuration, version 1.0.1	<input type="checkbox"/>
A.2.1.2 – The GP product submitted follows UICC Configuration, version 2.0	<input type="checkbox"/>
A.2.2 - UICC Extensions	
A.2.2.1 – The UICC Configuration is submitted with the SCP81 extension, Amendment B, version 1.1.1	<input type="checkbox"/>
A.2.2.2 – The UICC Configuration is submitted with the ‘SCP03 Common’ package of the Common Implementation Configuration v1.0 <i>This option can only be selected when the card is submitted for UICC configuration qualification, it cannot be selected alone</i>	<input type="checkbox"/>
A.2.3 – Financial Configurations	
A.2.3.1 – The GP product submitted follows Basic Financial Configuration, version 1.5	<input type="checkbox"/>
A.2.3.2 – The GP product submitted follows Financial Configuration v1.0	<input type="checkbox"/>
A.2.4 – The GP product submitted follows Mapping Guidelines, version 1.0.1	<input type="checkbox"/>
A.2.5 – The GP product submitted follows ID Configuration, version 1.0	<input type="checkbox"/>
A.2. 6 – Common Implementation Configuration	

<b>GlobalPlatform submitted Configuration Description</b>	
A.2.6.1 – The GP product submitted follows Common Implementation Configuration, version 1.0	<input type="checkbox"/>
A.2.6.2 – The GP product submitted follows Common Implementation Configuration, version 2.0	<input type="checkbox"/>
A.2.7 – The GP product submitted follows Secure Element Configuration version1.0	<input type="checkbox"/>
A.2.8– The GP product submitted follows Secure Element Access Control version1.0 <i>This option has to be selected together with a card platform configuration listed above, it cannot be selected alone.</i>	<input type="checkbox"/>
A.2.9 – Contactless Extension	
A.2.9.1 – The UICC Configuration is submitted with the Contactless Extension, version 1.0 <i>This Option can only be selected for UICC v1.0.1</i>	<input type="checkbox"/>
A.2.9.2 – The S.E. Configuration is submitted with Contactless Extension, version 1.0 <i>This Option can only be selected for S.E. v1.0 supporting SCP02</i>	<input type="checkbox"/>
A.2.9.3 – The Configuration is submitted with the Contactless Extension, version 2.0 <i>This Option can only be selected for UICC v2.0 and CIC v2.0</i>	<input type="checkbox"/>
A.2.10 – Memory Management Extension (Cumulative Granted Memory - Cumulative Delete)	
A.2.10.1 – The Configuration is submitted with UICC Memory Management Extension Test Suite, version 1.0.0 <i>This Option can only be selected for UICC v1.0.1</i>	<input type="checkbox"/>
A.2.10.2 – The Configuration is submitted with SE Memory Management Extension Test Suite, version 1.1.0 <i>This Option can only be selected for S.E. v1.0 supporting SCP02</i>	<input type="checkbox"/>
A.2.10.3 – The Configuration is submitted with Memory Management Extension Test Suite, version 2.0 , <i>This Option can only be selected for UICC v2.0 and CIC v2.0</i>	<input type="checkbox"/>

**GlobalPlatform submitted Configuration Description****eUICC M2M**

A.2.20 – The GP product submitted follows eUICC, version 2.1

A.2.21 – The GP product submitted follows eUICC, version 3.1

**eUICC Consumer**

(Products qualified by GlobalPlatform based on GSMA & SIMAlliance Test Plans)

GSMA SGP.23 v1.2 - RSP Test Specification

A.2.30 – The product submitted follows SGP.22 v2.1

A.2.30.1 The product is compatible with SIMAlliance Profile Package, version 2.0

A.2.30.2 The product is compatible with SIMAlliance Profile Package, version 2.1

A.2. 31 – The product submitted follows SGP.22 v2.2

A.2.31.1 The product is compatible with SIMAlliance Profile Package, version 2.1

**GlobalPlatform SWP/HCI Test Suite**

A.2.100 – The GP product submitted is to be tested using SWP and HCI Test suite version 1.0.X

A.2.101 – The GP product submitted is to be tested using SWP and HCI Test suite version 2.0.X

## SCO Version Number

A.3.1 – This SCO is for:  
(only one answer possible)

- A new submission  
 A replacement of a previously accepted SCO (\*)  
 A derivative Product submission  
 A change Product submission  
 A renewal submission

(\*) For a product under qualification and only if the Test Report related to the initial SCO has not been submitted yet.

A.3.2 – If the answer to question A.3.1 is a SCO replacement:

A.3.2.1 – provide the reference number of the previously accepted SCO

A.3.2.2 – provide the reason for updating the SCO

A.3.3 – If the answer to question A.3.1 is a Derivative Product:

A.3.3.1 – provide the SCO reference number of the Initial Product

A.3.3.2 – provide the LOQ reference number of the Initial Product

A.3.3.3 – please explain which derivation

A.3.3.4 – Type of derivation of the submitted product (As defined in section 4.8.1 of the GP qualification process)

A.3.3.5 – If a Conformance Assessment Report has been performed on the initial Product, please provide the CAR reference

A.3.4 – If the answer to question A.3.1 is a Change Product:

A.3.4.1 – provide the SCO reference number of the Product to change

A.3.4.2 – provide the LOQ reference number of the Product to change

A.3.4.3 – please explain which change

A.3.4.4 – If a Conformance Assessment Report has been performed on the Product to change, please provide the CAR reference

A.3.5 – If the answer to question A.3.1 is a Renewal Submission:

A.3.5.1 – provide the SCO reference number of the Initial Product

A.3.5.2 – provide the LOQ reference number of the the Initial Product

	A.3.5.3 – you require a Derivative product renewal without any tests (See if you can apply for such derogation in the GP qualification process).	<input type="checkbox"/>			
	A.3.5.4 – If you require a Derivative product renewal without any tests, please explain why				
	A.3.5.5 – If Conformance Assessment Reports have been performed on the Product to renew, please provide all relevant CAR reference(s) (up to 3)	<table border="1" style="width: 100%; height: 100%;"> <tr><td style="height: 20px;"></td></tr> <tr><td style="height: 20px;"></td></tr> <tr><td style="height: 20px;"></td></tr> </table>			

**Card Product Specification References**

	<b>Name</b>	<b>Version Number</b>	<b>Released by</b>
A.4.1 – Java Card Specification supported			
A.4.2 – GP Amendments supported (list all applicable)			
A.4.3 – GP Errata List supported (list all applicable)			
A.4.4 – GP API & Export file used (list all applicable)			
A.4.5 – Java Card API & Export file used (list all applicable)			
A.4.6 – Other Specification used (e.g. GSMA, ...) (list all applicable)			

<b>Card Product and Chip Descriptions</b>	
A.5.1 – Product Reference and Version No: (Same reference as in QLA or Exhibit A) (This is the name that will appear on the Qualified Products List)	
A.5.2 –Card Manufacturer name of the Card Product submitted for testing:	
A.5.3 – Provider Operating System Type:	
A.5.4 – Provider Operating System Name and Version Number:	Name: Version Number:
Chip Feature Description	
A.5.5 – RAM size (Kbytes)	
A.5.6 – ROM size (Kbytes)	
A.5.7 – Total EEPROM or Flash size (Kbytes)	
A.5.8 – Available EEPROM or Flash size (Kbytes)	
A.5.9 – CPU (8, 16 or 32 bit etc.)	
A.5.10 – Communication Protocol(s) used to qualify the Product for the GP configuration selected in A.2.1 to A.2.7 <i>(if Multi-Protocol Card, list all protocols to be used)</i>	<input type="checkbox"/> T = 0 <input type="checkbox"/> T = 1 <input type="checkbox"/> Contactless Protocol Type A <sup>(1)</sup> <input type="checkbox"/> Contactless Protocol Type B <sup>(1)</sup> <input type="checkbox"/> SWP Protocol <sup>(2)</sup> (GP HCI gate) <sup>(1)</sup> This option is only supported for Mapping Guidelines, Basic Financial Common Implementation Configurations. <sup>(2)</sup> This option is only supported for Secure Element Configurations.
A.5.11 – Platform Hardware (CHIP) Provider Name
