

GlobalPlatform Product Security Certification Pricing

The fees charged by GlobalPlatform are intended to cover the administrative costs incurred by GlobalPlatform in managing the Product Security Certification Process.

Product Security Certification fees were agreed by the GlobalPlatform board on August 2015.

The following fees shall be paid to GlobalPlatform by Product Vendors:

	<b>GlobalPlatform Member</b>	<b>Non-GlobalPlatform Member</b>
Product with a LOQ - Includes one certification round	US \$5,500	US \$11,000
Products with no qualification report - includes one certification round	US \$12,000	US \$17,000

50% of the above fees are due for each additional certification round that leads to a new Technical Certification Report.

Notes:

1. The fees charged by Accredited Laboratories to Product Vendors for GlobalPlatform testing services are not included in the above fees.
2. Payment terms applicable to the first certification round:  
 50% are due at the registration for security certification,  
 50% are due at the test plan validation.
3. Payment terms applicable to additional certification rounds:  
 100% are due at the registration of the additional round.
