

## Operations Bulletin

---

No. 20 • December 2019

### *Replacement of a previously accepted SCO*

#### 1.1 About this bulletin

The Product Qualification Operations Bulletin aims to present the GlobalPlatform Product Qualification Process changes and updates.

When an effective date is mentioned for a change, the change must be implemented as of that date; Changes for which no effective date is specified in the article are effective immediately.

#### 1.1 Summary

<b>Article Summary:</b>	The following official Type Approval Bulletin announcing the conditions under which a previously accepted SCO can be changed.
<b>Type:</b>	Operation Requirement Update
<b>Effective Date:</b>	Immediate
<b>Applicability:</b>	To any SCO change

From now on, GlobalPlatform allows technical information update of a previously accepted SCO under the conditions that:

- **A full test session** is performed,
- The Test Report related to the previous SCO **has not been submitted** to GP compliance secretariat.

**Note:** Laboratory shall ensure that a SCO change request doesn't aim to hide a bug in the product (such as deactivation of a function that doesn't work properly).

## 1.2 SCO change fees

A 500 USD fees shall be charged by GlobalPlatform to the Product Vendor for each SCO replacement.
