

# Product Qualification Operations Bulletin

---

No. 6 • November 2014

## *Test Report Template Update*

### 1.1 About this bulletin

The Product Qualification Operations Bulletin aims to present the GlobalPlatform Product Qualification Process changes and updates.

When an effective date is mentioned for a change, the change must be implemented as of that date; Changes for which no effective date is specified in the article are effective immediately.

### 1.2 Summary

<b>Article Summary:</b>	This article describes the modifications of the GP test report template
<b>Type:</b>	Operation Requirement Update
<b>Effective Date:</b>	Applicable immediately
<b>Applicability:</b>	All Configurations

### 1.3 Modifications

When generating the Test Report, laboratories have to use the GP Test Report Template.

The test report template has been updated with the following information:

- The laboratory's logo must be displayed on the cover page of the report,
- Regarding Applets qualification, the Hash code of the Applet byte code has to be provided in section 5 of the report. (MD5 algorithm has to be used to hash the .cap(s) file),
- Annex B shall contain the detailed Test Results following the exact format of the table provided in the template,
- Annex C shall contain the Test tool Report.
