

TEE Scheme Operations Bulletin

No. 36 • March 2023

Cryptographic Recommendations for TEE Internal Mechanisms v1.0

1.1 About this bulletin

This Operations Bulletin aims to introduce the document Cryptographic Recommendations for TEE Internal Mechanisms, ref. GPD_TEN_081.

When an effective date is mentioned for a change, the change must be implemented as of that date. Changes for which no effective date is specified are effective immediately.

1.2 Summary

Article Summary:	Cryptographic Recommendations for TEE Internal Mechanisms, ref. GPD_TEN_081, v1.0
Type:	Certification Requirement Update
Effective Date:	Applicable immediately
Applicability:	TEE Security Scheme

1.3 Cryptographic Recommendations

The document GPD_TEN_081 presents the cryptographic recommendations for TEE internal mechanisms such as secure initialisation, trusted storage, trusted application management, debug administration whenever they rely solely on cryptographic protection. The recommendations apply to any evaluation that claims compliance with the TEE Protection Profile, ref. GPD_SPE_021.
