

Membership Levels

Full membership - \$37,000/yr

Full members take an active role in the leadership of GlobalPlatform and development of the GlobalPlatform Specifications for Secure Element (SE), SESIP (Security Evaluation Standard for IoT Platforms), and Trusted Environments & Services (TES). Full members have heavily weighted voting privileges at both committee and Board level.

Full members are entitled to:

- Nominate one representative for election to the Board of Directors
- Assign representatives to participate in each technical committee
- Nominate candidates for consideration as technical committee chairs
- Assign representatives to participate in each task force
- Attend all-member meetings
- Leverage GlobalPlatform's marketing, PR and speaker program
- Access the member-only website to attain privileged information and documentation

Participating membership - \$30,000/yr

Participating members focus their contributions on a specific area of GlobalPlatform's infrastructure and have weighted voting privileges.

Participating members are entitled to:

- Assign representatives to participate in one of the technical committees, addressing either SE, SESIP, or TES (TEE and TPS) technology
- Nominate candidates for consideration as chairs of their chosen technical committee
- Assign representatives to participate in each task force
- Attend all-member meetings
- Leverage GlobalPlatform's marketing, PR and speaker program
- Access the member-only website to attain privileged information and documentation

Observer membership - \$15,000/yr

Observer members may participate in all task forces but do not play an active role in the technical committees. Rather, they 'observe' progress of the technical committees when activity progresses, and documents become available for early review on the members-only website. Observer members are not eligible to vote on GlobalPlatform initiatives.

Observer members are entitled to:

- Participate in each task force
- Attend all-member meetings
- Access the member-only website to attain privileged information and documentation

Public entity membership - \$7,750/yr

This level of membership applies to not-for-profit organizations in the public sector, such as governments (federal, state or provincial), educational institutes and legal entities pursuant to the applicable law of the organization.

- *Public entity members share the same membership rights as observer members*

Consultant membership - \$1,700/yr

This level of membership applies to small companies who derive their revenues strictly from consulting services, not through product or solution sales or development. The number of company employees must not exceed five, while the number of secure component technology experts must not exceed three.

- *Consultant members share the same membership rights as observer members*
