

Strategic Supply Chain Security: Panel 1

Panel 1: Security Supply Chain

Device Authority

- Tyler Gannon

NIST

- Sanjay Rekhi

Pavona

- Dominc Rizzo

Qualcomm

- Jeremy O'Donogh

Rambus

- Dino Carnevale

Stellantis

- Bill Mazarra

VicOne

- Amadou Kane

Strategy of Chain of Custody

**What do we mean by
supply chain security?
What are the primary use
cases?**

What is the fundamental
motivation for supply chain
security: safety, defense in
depth, warranty
management, or regulatory
compliance (SBOM/HBOM)
?

Technical Chain of Custody

What is a vehicle taxonomy abstract model for supply chain security?

What are important identity classes ?
E.g. Depth, Zones, Groups, Batches

What are the biggest standardization gaps today?

Coordination: Chain of Custody

How can OEMs and suppliers align their systems with the chip production process?

How can players coordinate for comprehensive solutions?

What are the central policy questions?
